IN THE COMMONWEALTH OF KENTUCKY IN THE)	
COUNTY OF FLEMING)	
)	
SITE NAME: JOHNSON CREEK)	

O R D E R

On May 2, 2006, Shared Sites, LLC, and American Cellular Corporation (“Applicants”) filed an application seeking a Certificate of Public Convenience and Necessity to construct and operate a wireless telecommunications facility. The proposed facility consists of a guyed antenna tower not to exceed 286 feet in height, with attached antenna, to be located at 1602 Connector Road, Ewing, Fleming County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 28’ 0.57” by West Longitude 83° 54’ 19.13”.

The Applicants have provided information regarding the structure of the tower, safety measures, and antenna design criteria for the proposed facility. Based upon the application, the design of the tower and foundation conforms to applicable nationally recognized building standards, and a Licensed Professional Engineer has certified the plans.

Pursuant to 807 KAR 5:063, the Applicants have notified the County Judge/Executive of the proposed construction. The Applicants have filed applications with the Federal Aviation Administration ("FAA") and the Kentucky Airport Zoning Commission ("KAZC") seeking approval for the construction and operation of the proposed facility. Both decisions are pending.

The Applicants have filed evidence of the appropriate notices provided pursuant to 807 KAR 5:063. The notices solicited any comments and informed the recipients of their right to request intervention. On May 5, 2006, John F. Estill filed letter of formal objection to the proposed construction on behalf of his clients, Dr. George E. and Bonnie Estill. On May 23, 2006, the Commission issued a response letter to Mr. Estill which established a set period of time for Mr. Estill to request full intervention in the proceeding. The period of time set forth in the Commission's response has since passed and the Commission has received no further response from Mr. Estill or his clients.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, finds that the Applicants have demonstrated that a facility is necessary to provide adequate utility service and that, therefore, a Certificate of Public Convenience and Necessity to construct the proposed facility should be granted.

Pursuant to KRS 278.280, the Commission is required to determine proper practices to be observed when it finds, upon complaint or on its own motion, that the facilities of any utility subject to its jurisdiction are unreasonable, unsafe, improper, or insufficient. To assist the Commission in its efforts to comply with this mandate, the Applicants should notify the Commission if they do not use this antenna tower to provide

service in the manner set out in their application and this Order. Upon receipt of such notice, the Commission may, on its own motion, institute proceedings to consider the proper practices, including removal of the unused antenna tower, which should be observed by the Applicants.

IT IS THEREFORE ORDERED that:

1. The Applicants are granted a Certificate of Public Convenience and Necessity to construct a wireless telecommunications facility. The proposed facility consists of a guyed antenna tower not to exceed 286 feet in height, with attached antenna, and is to be located at 1602 Connector Road, Ewing, Fleming County, Kentucky. The coordinates for the proposed facility are North Latitude 38° 28' 0.57" by West Longitude 83° 54' 19.13".

2. The Applicants shall file a copy of the final decisions regarding the pending FAA and KAZC applications for the proposed construction within 10 days of receiving the decisions.

3. The Applicants shall immediately notify the Commission in writing, if, after the antenna tower is built and utility service is commenced, the tower is not used for a period of 3 months in the manner authorized by this Order.

Done at Frankfort, Kentucky, this 27th day of June, 2006.

By the Commission
